MONROE COUNTY COMMUNITY SCHOOLS
Transforming Lives

Annual Report

2016-2017 School Year

Helping all Students Succeed!

A Year of Growth and Impact!

In the 2016-2017 school year the Foundation grew both in assets and impact. We received our second largest gift to date and we increased our programmatic funding to the MCCSC. It is because of you and the generosity of our community that this was possible.

An estate gift of \$141,000 from a life-time educator enabled us to create an unrestricted endowment that will grow and shape educational opportunities for students both today and in the future. This gift establishes a legacy for future growth and impact. Growth in gifts from individuals and business also allowed us to increase funding to our educator grant program providing much needed resources to engage our children in learning. We also expanded our STEM initiatives with the development of the Girls in Engineering, Math, and Science (GEMS) program.

Together we infused more than \$200,000 into our schools impacting more than 11,100 students.

As you read our annual impact I hope you can feel our excitement and gratitude. Every gift, regardless of size, helps us become a stronger community that empowers our students to learn and succeed.

Thank you for changing young lives!
